Currently, Waste Management, Inc. is likely to support SB 1020. A key issue of the bill is whether or not it addresses setting a statewide diversion goal rather than increasing local government diversion requirements. Waste Management, Inc. is also likely to support SB 1016 depending on the final language of the bill. Language in the bill is in the process of being changed from setting a diversion goal to setting a disposal-based goal based per capita.

# -RECYCLING OF CALIFORNIA

## ERC FACTS

### ERC Processes over 20 Million Pounds of Electronic Waste Annually

The ERC division has set a Zero Waste goal and our proven processing produces a recycling rate for collected materials of 98% or greater.

Monitors and TVs are de-manufactured into recyclable components such as CRT glass, plastics (typically HIPS and ABS) metals, copper yokes, miscellaneous copper bearing material, and circuit boards.

CRT glass is shipped to secondary processors for "glass to glass" or "glass to lead" recycling.

Items such as toner, batteries, and inkjet printer cartridges are removed and properly recycled.
